Professional Summary

Results-driven Data & Process Management Analyst with 4 years of experience in pharmaceutical commercial operations, specializing in data governance, data quality automation, and analytics. Proficient in SQL, Snowflake, Power BI, and AWS S3 with strong expertise in US Pharma datasets (DDD, DDDMD, Xponent, 867, 852, Patient, Dispense). Adept at building scalable data pipelines, process automation frameworks, and delivering actionable business insights through KPI dashboards and advanced analytics.

Technical Skills

- Databases & ETL: SQL, PostgreSQL, Snowflake, Informatica Cloud, Python
- Analytics & Visualization: Power BI, Advanced Excel
- Pharma Data Expertise: DDD, DDDMD, Xponent, 867 sales, 852 inventory, Patient, Dispense
- Tools & Platforms: Veeva, AWS S3, Sas Studio
- Other: Data Governance, Data Quality Frameworks, KPI Reporting, Process Automation

Professional Experience

Sanofi Healthcare India Private Limited

Data & Process Management Analyst | Hyderabad, India | Jun 2024 – Present

- Managed and governed large-scale US Commercial & Pharma datasets ensuring accuracy, compliance, and integrity.
- Delivered clean quarterly IC datasets through automated QC frameworks, reducing downstream inquiries by 30%.
- Resolved field inquiries from ABMs, RBDs, ZBDs, and NSDs using cross-system analysis (Veeva, RCM, IC, Field Reporting).
- Authored SOPs for IC dataset delivery, inquiry management, and new product launch reporting to standardize processes.
- Coordinated with external vendors (IQVIA, ValueCentric, Data Unveil) and internal stakeholders to ensure timely, high-quality data delivery.
- Developed data validation pipelines in SaS Studio and Snowflake, performing integrity checks and null field validations.
- Conducted ad-hoc analytics on Specialty Pharmacy and Account-level datasets, delivering market share insights to leadership.

Key Achievement:

- Spearheaded the PIM AEGIS Project, implementing automated data quality controls and achieving formal recognition at Sanofi Go to Market capabilities Townhall.

Cognizant Technology Solutions (Client: Sanofi)

Programmer Analyst Trainee → Programmer Analyst → Associate | Hyderabad, India | Aug 2021 – Jun 2024

- Managed and processed customer, field force, and HCP/HCO datasets for pharmaceutical analytics.
- Designed and optimized ETL pipelines using Informatica Cloud, enabling seamless data integration.
- Built Power BI KPI dashboards and reports, enabling data-driven decisions across business units.
- Authored SQL queries with CTEs and window functions to extract complex insights from Snowflake/Postgres.
- Partnered with global teams (Japan, France) to resolve critical data escalations with 100% SLA compliance.
- Developed aggregate views and automated workflows, reducing manual processing time by 25%.

Projects

- Data Quality Framework for IC Datasets: Designed and deployed a comprehensive data quality framework that included national sales comparisons across quarters, mandatory field null-checks, and integrity validations, significantly improving data reliability.

Certifications

- Data Analysis with Python (Coursera)
- SQL for Data Science (Coursera)
- Data Visualization with Power BI (Coursera)

Education

B.Tech – Electronics & Communication Engineering | SRKR Engineering College | 2017 – 2021 | CGPA: 8.38
