QA Engineer

Manual Testing | Mobile Testing | Basic Automation (Selenium-Java) | API Testing (Postman) | Web & Mobile Applications | BFSI Domain | 4+ Years of Experience

PROFESSIONAL SUMMARY

QA Engineer with **4+ years** of experience in Manual Testing of **web and mobile applications**, specializing in **functional, regression, smoke, sanity, exploratory, and UAT** testing. Strong expertise in **test case design, defect tracking**, and validation of end-to-end business workflows in **Agile** environments. Hands-on experience in **API** testing using **Postman** for **request/response** validation and **status code** verification, along with basic **automation** exposure using **Selenium WebDriver (Java)** and **TestNG** for smoke testing. Known for strong analytical thinking, attention to detail, effective communication, and close collaboration with developers, BAs, and product teams to ensure high-quality releases.

KEY SKILLS

Manual Testing: Functional, Regression, Sanity, Smoke, Exploratory, Integration, SIT, UAT, E2E, Usability, Re-testing, Risk-based Testing, RCA, Defect Management, Test Case Design, Test Data Management

Web Application Testing: Cross-browser Testing, UI Validation, CMS Testing (Drupal, Umbraco)

Mobile Application Testing (Android): UI/UX Validation, Gesture Testing, Interrupt Testing, Network Testing, Compatibility & Installation Testing

API Testing: Postman Collections, GET, POST, PUT, DELETE, Response Validation, Status Code Verification

Automation Testing: Selenium WebDriver (Java), TestNG, POM, Maven, XPath

Database: SQL Queries, Joins, Data Integrity Validation, Backend Workflow Validation

Agile & Process: Agile, Sprint Planning, Sprint Execution, Daily Stand-ups, Retrospectives, User Story Review, Acceptance Criteria Analysis, Defect Triage

Tools & Testing Concepts: Jira, DevTrack, Postman, Figma, Chrome DevTools, SDLC, STLC, RTM, Boundary Value Analysis, Equivalence Partitioning, Decision Table Testing, State Transition Testing, Use Case Testing

PROFESSIONAL EXPERIENCE

Senior Software Engineer – QA | Zensar Technologies, Hyderabad | Sep 2021 – Present

Domain: BFSI | Client: AAA

- Analyzed business requirements and user stories to design comprehensive test scenarios and test cases, **improving overall test coverage and release stability**.
- Performed end-to-end **manual testing** including functional, regression, smoke, sanity, and UAT testing across web and mobile platforms.
- Collaborated with developers, BAs, and product teams for defect triage and release sign-off, **supporting timely and quality-driven deliveries**.

- Conducted **API testing using Postman** and backend validation using **SQL** to ensure data accuracy and integrity.
- Supported automation efforts by developing and executing **basic Selenium smoke test scripts** using Java, TestNG, and POM framework.

Project: Case Management System (Sep 2021 – Present)

- Designed and executed detailed test cases for functional, and regression testing, **improving regression coverage by ~40%**. Logged and tracked defects in **Jira**.
- Validated complex **payment workflows** (Card, NetBanking, Refunds, Reversals, SEPA, and Multi-currency payment flows), **reducing payment-related defects by ~20%**.
- Performed **API** request/response validation, and status code verification using **Postman**. Executed **SQL** queries for backend data validation and ensured UI-to-DB data consistency.

Project: WebFile – Mobile Application (Apr 2023 – Jun 2025)

- Performed end-to-end mobile testing on **real Android devices**, validating UI/UX, gestures, screen responsiveness, and orientation changes.
- Executed functional, regression, interrupt, and network testing by simulating real-user scenarios such as calls, SMS, and connectivity changes, **helping improve app stability**.
- Conducted installation, permission validation, smoke, and sanity testing before full regression cycles.

Project: ADR – CMS Application (Sep 2021 – Oct 2022)

- Performed manual testing of CMS-based web applications to validate content creation, editing, publishing, and unpublishing functionality.
- Conducted UI validation to ensure pages, forms, and content layouts displayed correctly across browsers and devices.
- Executed functional and regression testing to ensure existing CMS features were not impacted by new changes.

ACHIEVEMENTS

- Star Achiever – FY23
- Customer Centricity Nominee – FY24
- Team of the Quarter – H2 FY25

EDUCATION

B.Tech – Electronics and Communication Engineering | VNITSW, Guntur | 2021

ADDITIONAL INFORMATION

- Willing to relocate
- Strong communication & analytical skills
- Effective team player with a quality-focused mindset
