SKILLS

Programming Language :
Java

Automation Tools :
Selenium WebDriver,
Appium, IntelliJ, Eclipse,
Swagger

Cloud Testing : Sauce Lab

Build Tool : Maven

Version Control : GIT

Test Framework :TestNG

Web Framework : Spring
(Basic)

Confluence

Continuous integration :
Jenkins

Database Technology :
Azure Cosmos DB(NoSQL),
RDBMS

Test Management : Jira

Agile Methodology , Sprint
Delivery model, TDD
Framework

Performance Tool :
Postman

Web Services : JSON, REST,
XML

WORK EXPERIENCE

SDET

Capitol QA for Zepto

02/2024 - Present

Bengaluru

Achievements/Tasks

- Design, develop, and maintain automated test suites for Backend/API testing using Rest Assured, Java, and TestNG.
- Contribute to the CI/CD pipeline by configuring and executing automated tests in Jenkins.
- Collaborate with the development team to ensure high-quality code delivery by identifying and reporting defects.
- Perform manual testing tasks as needed, leveraging tools such as JIRA, Postman, and Confluence.
- Utilize MongoDB and Postgres databases for testing data setup and validation.

SDET

Randstad India Pvt. Ltd for Walmart Global Tech

12/2021 - Present

Bengaluru

Achievements/Tasks

- Took **ownership of UI Redesign project** and **Backend application** testing, ensuring robust and efficient test coverage.
- Collaborated closely with stakeholders, including UX, product managers, and senior developers, to facilitate planning discussions and gather project requirements. Additionally, organized triage calls to provide a comprehensive overview of reported bugs, thereby enhancing our overall test strategy.
- Within a Sprint Delivery model, demonstrated leadership by driving cross-team technical discussions, ensuring seamless coordination between testing and development teams to align efforts with project goals.
- Planned and implemented a comprehensive test strategy, collaborating closely with cross-functional teams to conduct test design reviews, ensuring alignment with project objectives, and upholding rigorous quality standards in our testing processes.
- Conducted Component, Integration, and End-to-End (E2E) testing for APIs, web, and mobile applications on both Android and IOS platforms, effectively identifying and resolving critical defects. Additionally, I provided valuable assistance in troubleshooting and resolving production issues
- Collaborated in the development of automation test scripts for both lower and production environments, executing automated tests for sanity and regression testing to improve testing efficiency. Moreover, I created a utility to streamline the Order journey and exposed it using Swagger.
- Technologies used : Java, Maven, Rest Assured, TestNG, Selenium Web driver, Spring, Swagger, Walmart's internal CI tool, GIT, Splunk, Rest API, Kafka, Azure Cosmos DB, SQL, Object Oriented Programming, Manual testing, IntelliJ and Eclipse IDE, Test Driven Development(TDD).

System Engineer

Lince Soft Solutions Pvt. Ltd

04/2019 - 09/2021

Hyderabad

Achievements/Tasks

- Learned Automation Testing using Selenium WebDriver, TestNG, and Java. Proficiently executed test cases for web applications.
- Evaluated and validated effective automated and manual testing methods. Conducted acceptance, integration, and E2E testing for quality assurance.
- Utilized automation for Functional, Regression, and Sanity Testing. Enhanced efficiency, minimized manual effort, and ensured consistent results.
- Tracked changes and maintained Test Requirements following Agile methodology.
- Technologies used : Java, Maven, Rest Assured, TestNG, GIT, Rest API, Manual testing, IntelliJ and Eclipse IDE.

EDUCATION

Electrical & Electronics Engineering

Gandhi Institute of Excellent Technocrats

06/2012 - 05/2016

Bhubaneswar
