Back-end: Spring (Core, MVC, ORM, Security, Batch, Cloud, Test), Struts, Hibernate, Webservice (SOAP, REST Micro services), Junit, Mockito, Test Containers
Front-end: Angular
- Database:** Oracle, Mongo DB, SQL Server, DB2, Couchbase
- Public Clouds:** Amazon Web Services(AWS), Azure, Google Cloud Platform(GCP)
- AI/ML Technologies:**
LLM: AWS Bedrock (claude v2, Titan), GPT-3.5 turbo
Vector store: FAISS, Open search
Frameworks/packages: Langchain, NumPy, Pandas
- DevOps (CI/CD Tools):**
Github Actions, Jenkins, Gradle, Maven, Ant, Jacoco, PMD, Find Bugs, HP Fortify, Checkmarx, Terraform, Docker, Kubernetes
- Observability Platforms:**
NewRelic, ELK stack
- Source Controls:**
Github, Bitbucket, SVN, CVS
- Others:**
Kafka

QUALIFICATIONS

- BE,** KLN College of Engineering, Madurai, 2005 passout

PERSONAL INFORMATION

- Date of Birth:** 19 Feb 1984
- Languages:** English, Hindi, and Tamil
- Nationality:** Indian
- Passport Details:** P1309052 valid till Jul 2026
- Address:** Flat F1, Block-A, Lyrica Apartment, Plot #20 Sekaran Nagar, Perumbakkam, Chennai – 600100

Vasanth Babu Raju

Principal Architect/ Principal Engineer/ Senior Solutions Architect/ Enterprise Architect

Highly experienced IT professional with 18 years of expertise in designing, implementing, and managing complex IT systems and architectures. Aspiring to leverage deep technical knowledge and strategic vision in a Principal Architect, Principal Engineer, Senior Solutions Architect, or Enterprise Architect role to drive innovation, optimize system performance, and deliver scalable solutions that align with organizational goals. Committed to leading cross-functional teams, fostering a culture of continuous improvement, and implementing cutting-edge technologies to enhance business operations and achieve transformative outcomes.

EXECUTIVE SYNOPSIS

- Enterprise Architecture Design:** Develop and implement comprehensive enterprise architecture frameworks that align with business objectives and drive technological innovation.
- System Integration:** Lead the seamless integration of diverse IT systems, ensuring interoperability, scalability, and reliability across the organization.
- Technology Evaluation:** Assess emerging technologies and recommend solutions that enhance business capabilities and improve operational efficiency.
- Strategic IT Planning:** Formulate and execute strategic IT plans that support long-term business goals and foster digital transformation.
- Cloud Architecture:** Design and manage cloud-based solutions, optimizing performance, security, and cost-effectiveness.
- Application Development:** Oversee the development and deployment of enterprise-level applications, ensuring they meet business requirements and performance standards.
- Performance Optimization:** Enhance system performance through continuous monitoring, tuning, and optimization of IT infrastructure and applications.
- Stakeholder Collaboration:** Collaborate with business leaders, IT teams, and other stakeholders to align technology initiatives with business needs and objectives.
- IT Governance:** Establish and enforce IT governance frameworks, policies, and best practices to maintain system quality and compliance.
- Innovation and Continuous Improvement:** Drive innovation and continuous improvement initiatives, leveraging the latest technologies to enhance business processes and deliver strategic value.
- Mentoring & Team Management:** Groom and mentor team members to take up future leadership roles in the organization.

PROFESSIONAL EXPERIENCE
