

Prasanth K

MERN STACK DEVELOPER | REACT DEVELOPER

Phone: 7200126208 | Email: Prasanth.kubendran@outlook.com | Place: Theni

www.linkedin.com/in/prasanth-k-105338310

Objective

Highly skilled Full-Stack Developer with **10 years of industry experience**, including **5 years as a UI/UX Designer & UI Developer** in the Healthcare domain (Medical Billing, Coding, and Transcription) and **5 years as a MERN Stack Developer** specializing in building scalable and performant web applications. Proven ability to deliver responsive, accessible, and multilingual user experiences across diverse domains, including **HRMS (Payroll, Leave, Attendance, Exit, ERS)**.

Proficient in **modern frontend technologies** such as **React.js, Next.js, Material-UI, Tailwind CSS**, and **robust backend stacks** using **Node.js, Express.js, MongoDB, and SQL Server**. Experienced in implementing state management using **Redux Toolkit (RTK), Redux, and RTK Query**, and integrating **RESTful APIs and GraphQL** for seamless data flow. Adept at following **Agile methodologies**, collaborating with cross-functional teams, and driving **end-to-end product development** from design to deployment.

Now seeking opportunities to contribute technical leadership and development expertise to innovative and impactful projects that align with business goals.

Technical Skills

• Programming Languages: JavaScript, HTML, CSS	• Testing Tool : Jest, React Testing Library, Vitest
• Frameworks and Libraries: React.js, Next.js, React-Refine, Node.js, Express.js, React Admin.	• Methodologies : Agile-Scrum, Kanban
• Frontend Development: Responsive Web Design, Cross-Browser Compatibility, Web Accessibility.	• State Management : Redux , Context API, Redux- toolkit, RTK Query
• Styling Tools: CSS Modules, Styled Components, Sass/SCSS, Tailwind CSS, Material-UI	• Build Tools and : Webpack, Vite, npm, Yarn
• APIs and Integration: RESTful APIs, GraphQL, WebSocket's	• Version Control : Git, GitHub, GitLab
	• Other Tools : VS Code, Figma, Postman, Azur-ADO, Gitlab, CICD

Work History

Allsec Technologies Ltd, Chennai	Team Manager	Jun 2018 – Present
Rapidcare Transcription Pvt Ltd, Chennai	IT Programmer	Jan 2015 – Jun 2018

Professional Summary

- Proficient in **JavaScript, MongoDB**, and modern web technologies, with expertise in developing dynamic, scalable, and responsive web applications.
- Experienced in using **React.js, Next.js, React-Refine, Node.js, Express.js, and React-Admin** for full-stack development, delivering feature-rich and user-centric solutions.
- Proficient in writing clean, maintainable, and well-tested code using **React.js, Node.js**, and modern front-end frameworks to ensure high performance and scalability.
- Skilled in **frontend development** with a focus on **responsive web design, cross-browser compatibility, and web accessibility** to ensure seamless user experiences across devices and platforms.
- Adept at implementing robust testing strategies using **Jest, React Testing Library, Vitest, MSW**, and **Selenium IDE** to ensure high-quality and bug-free applications.
- Expertise in modern styling tools such as **CSS Modules, Styled Components, Sass/SCSS, Tailwind CSS**, and **Material-UI, Bootstrap**, creating visually appealing and maintainable interfaces.
- Strong experience in integrating **RESTful APIs, GraphQL**, and **WebSocket**, enabling efficient data flow and seamless communication between systems.
- Proficient in using **Redux, Context API, Redux Toolkit**, and **RTK Query** for state management, ensuring scalability and performance in complex applications.
- Experienced with **CI/CD pipelines** using **GitLab CI/CD**, and adept at version control with **Git, GitHub**, and **GitLab** to streamline the development and deployment processes.
- Knowledgeable in using build tools such as **Webpack, Vite, npm**, and **Yarn**, ensuring efficient bundling and optimized performance of web applications.
- Familiar with **Postman** for API testing and integration, and **Azure ADO** for project management in Agile and Kanban development environments.
- Collaborative team player with a strong foundation in **Agile-Scrum** and **Kanban methodologies**, effectively contributing to sprint planning, code reviews, and project delivery.
- Skilled in **UI/UX design tools** like **Figma, Adobe XD, Illustrator, Photoshop** to align development with design principles,

- creating intuitive and aesthetically pleasing applications.
- Passionate about adopting and **implementing new technologies** to **enhance application functionality**, performance, and user experience.
- Continuously stays updated on the latest **front-end development trends, tools, and best practices** to ensure competitive and innovative solutions.

Professional Experience

Allesc Technologies LTD	Team Manager	Jun 2018 – Present
Project Name: HRMS (Payroll, Leave, Attendance, Exit, ERS)		

Roles and Responsibilities

- Developed and maintained a dynamic HRMS web application using React.js, ensuring seamless user interactions through a responsive and intuitive UI for HR administrators and employees.
- Integrated real-time employee location tracking and resource mapping features using React-Leaflet, enabling HR teams to efficiently manage remote or field staff.
- Utilized Material-UI to create consistent, mobile-friendly, and visually appealing user interfaces, enhancing user experience across HR modules (Leave, Payroll, Recruitment, Attendance).
- Implemented state management using Redux and Redux Toolkit, ensuring data consistency across complex HR workflows such as leave approvals, attendance sync, and performance reviews.
- Optimized server-side data handling and caching using RTK Query, reducing latency for critical HR operations like payslip generation and reporting dashboards.
- Collaborated closely with cross-functional teams, including backend, QA, and business analysts, to deliver modules aligned with HR and telecom domain requirements.
- Conducted unit and integration testing to ensure accuracy and reliability of key functionalities like onboarding, employee profile management, and notifications.
- Integrated i18Next for multilingual support, catering to a global workforce with region-specific language preferences.
- Designed and implemented routing using React-Router, ensuring seamless navigation between HR modules like Dashboard, Timesheet, and Reports.
- Actively participated in Agile ceremonies (sprint planning, daily stand-ups, retrospectives) to align tasks with sprint goals and ensure timely delivery of features.

Rapid care Transcription Pvt Ltd	Programmer	Jun 2015 – May 2018
Roles and Responsibilities		

- Developed and maintained **UI screens** for modules related to **medical transcription, billing, and coding** using **HTML5, CSS3, JavaScript, and jQuery**
- Created **clean, responsive layouts** compatible across browsers and devices for healthcare professionals and back-office teams.
- Collaborated with backend/API teams to display data such as **ICD-10, CPT codes**, and patient billing details.
- Ensured user interface compliance with **HIPAA regulations**, maintaining data privacy for patient health records.
- Designed intuitive dashboards for coders to view claim status, transcription logs, and reimbursement workflows.
- Worked closely with QA and domain SMEs to test UI functionalities tied to medical billing logic and code mapping.
- Participated in Agile development process, attending sprint meetings and delivering UI tasks on time.

Education

Master of Computer Applications (MCA)

[Senguthar Arts & Science College - Tiruchencode], [Periyar University - Salem]

Year of Passing: 2014

Grade: First Class with Distinction

Key Subjects: Web Development, Java Programming, Database Systems, Cloud Computing

Bachelor of Science (B.Sc) – Computer Science

[Hajee Karutha Rawthar Howdia College- Uthampalayam], [Madurai Kamaraj University]

Year of Passing: 2012

Grade: First Class
