EXPERIENCE

Tech Lead (Mobile Applications)

November 2023 – Present

Market Simplified

Mumbai, India

- **NDS OM Retail (Android & iOS - Flutter):**

- Designed and implemented an anonymous order matching system for RBI-owned government securities, enabling secure secondary market trading.
- Integrated real-time data streaming via SignalR and enhanced user experience through Bloc state management.
- Streamlined payment gateway operations, increasing system efficiency by 30%.

- **Axis Mutual Fund (Android & iOS - Flutter):**

- Designed and implemented fully digital onboarding, seamless SIP and lump sum investment flows with API integration, and real-time portfolio dashboards, ensuring secure and compliant transactions through encryption.
- Integrated biometric login using ED25519 cryptography for secure and seamless authentication across devices.
- Implemented Shorebird for over-the-air updates to deliver seamless app improvements without requiring App Store or Play Store resubmissions.

Tech Lead (Mobile Applications)

Jun 2022 – Nov 2023

LiquiLoans

Mumbai, India

- **LiquiMoney (Android & iOS - React Native to Flutter):**

- Migrated a fintech app from React Native to Flutter, improving performance and maintainability by 40%.
- Built features for CKYC verification, KYC completion, investment, and fund withdrawal, reducing onboarding time by 25%.
- Integrated payment gateways (PayU, Paytm) and implemented state management using GetX for seamless functionality.

Senior App Developer

Jun 2017 – May 2022

ParkUpNow

Mumbai, India

- **ParkUpNow (Customer & Vendor Apps)(Android & iOS):**

- Created an end-to-end parking solution for events and commercial spaces, supporting over 1,00,000 users monthly.
- Enhanced vendor operations with QR-based validations and offline synchronization, boosting reliability by 50%.
- Integrated Razorpay and Paytm, automating payment processes and reducing errors by 20%.

- **KnockKnockNow (Visitor Management App)(Android & iOS):**

- Developed a comprehensive app for managing visitors, vendors, and services in residential societies, increasing user engagement by 15%.
- Enabled emergency alert systems and guest invites, enhancing security and user convenience.

- **Goregaon Sports Club (GSC) App (Android & iOS - Flutter):**

- Built a booking platform for GSC members to reserve facilities and banquets, serving over 10,000 active users.
- Implemented member wallet top-ups via Razorpay and introduced a social feed feature to boost community interaction.

Android App Developer

Aug 2016 – May 2017

BCOD Web Solutions

Mumbai, India

- Delivered tracking, home automation, and medical apps, integrating Google Maps, Directions, and Places APIs.
- Enhanced notification systems with Firebase, improving app responsiveness by 20%.

Android App Developer

Sep 2015 – Jul 2016

Prism Technologies

Mumbai, India

- Developed *PariHoonMain*, a women-centric app addressing daily needs with offline SQLite database support.

SKILLS

Mobile Development: Android, iOS, Flutter, React Native, Material Design, MVVM, MVP, Bloc, GetX, Clean Architecture, Jetpack Compose, SwiftUI

Programming Languages: Kotlin, Java, Swift, Objective-C, Dart, JavaScript, C, C++

Tools & Frameworks: Dagger Hilt, Redux, Room, SQLite, Realm, SignalR, Retrofit, Alamofire, Firebase (Auth, Realtime Database, Firestore, Cloud Messaging)

UI/UX: Wireframing, Prototyping, Animation Libraries, Responsive Design, Accessibility Standards

DevOps & Agile: Git, GitHub, SonarQube, Jira, Agile Workflow, CI/CD for Mobile Apps (Codemagic, GitHub Actions)

Testing & Debugging: Unit Testing, Integration Testing, UI Testing, Crashlytics, Performance Optimization

Backend Integration: RESTful APIs, GraphQL, WebSockets, JSON, OAuth

Cloud & Services: Firebase, Azure, AppCenter

Analytics & Monitoring: Google Analytics, Mixpanel, A/B Testing, MoEngage

Other: Payment Gateway Integration, Data Structures, Algorithms, App Store Optimization

PROJECTS

Pharmacy Portal Android App

Feb 2015 – Jun 2015

- Developed an app offering on-the-go services for ordering medicines with a medical prescription, targeting improved accessibility for customers.
- Implemented customer sign-up functionality with data stored in an SQLite Database for seamless and secure management.
- Enabled multiple communication options, including messaging, direct calls, and email services for sending prescriptions.

EDUCATION

Bachelor of Technology – Computer Science Engineering

2011 – 2015

Rajasthan Technical University, Kota
