## SKILLS SUMMARY

*With my experience in customer success and skills in communication, analysis, technical support, and project management, I am well-equipped to help clients achieve their goals and overcome any challenges they may face. My passion for technology and ability to think critically and independently makes me an expert in finding innovative solutions for clients, building strong relationships with them. Additionally, my growth path includes interest in product management role, where my knowledge of client's needs, industry insights and my ability to work in cross-functional teams will help to shape the product strategy and bring innovative solutions to market. Continuously learning new technology to stay updated and deliver optimal solutions.*

---
