SUMMARY

Software developer with 6.5+ years of experience building scalable apps across **Agritech, Healthtech, and Insurtech**. Deep expertise in Android (Kotlin, Jetpack, Compose, MVVM, Coroutines, Hilt/Koin) with a strong track record of delivering apps that **cut operational costs**, boosted engagement by **20%**, and reduced onboarding from **10 days to 2 days**. Skilled in offline-first design, performance optimization, secure authentication, and CI/CD pipelines. Additionally experienced with React Native and ReactJS, enabling effective cross-platform collaboration.

SKILLS

Languages:	Kotlin, Java, JavaScript, TypeScript
Android:	Jetpack Compose, Room, Hilt, Koin, LiveData, Coroutines, Flow, XML, MotionLayout, MPAndroidChart
Cross-Platform:	React Native (Expo), ReactJS (basic)
Data & APIs:	GraphQL, REST APIs, Room DB, Offline-first Architecture
Tools & Platforms:	Firebase, Datadog, Sentry, Mixpanel, Clevertap, Retool, Git, Gradle, CI/CD
Testing:	JUnit, Espresso, Jest, Playwright, Compose UI Testing
Practices:	MVVM, MVI, Agile/Scrum, TDD, Performance Optimization

WORK EXPERIENCE

Android Developer

May 2022 – Present

Jiva Ag, Bangalore (Remote)

- Developed the **MC-Tiering gamification module**, resulting in a 20% increase in DAU/MAU. Implemented Compose UI flows, integrated with GraphQL APIs, and added redeem store access (via Angular SPA + JS bridge). Also worked on the **Engagement Framework** with real-time campaign tracking, later reused across multiple apps.
- Migrated large parts of the app from **REST APIs to GraphQL**, using Coroutines & Flow to simplify reactive state handling and improve data consistency across screens.
- Worked on migrating multiple **legacy XML layouts to Jetpack Compose** as part of the design overhaul epic. Collaborated with designers to achieve 1:1 fidelity with Figma prototypes, improving both UI polish and developer velocity.
- Built the **Profile Verification module**, including secure file upload flows for identification documents and backend integration to enable user verification and compliance with KYC requirements.
- Implemented complex **animations using MotionLayout** for high-visibility features. Recognized by the design team for precise execution and pixel-perfect animation behavior.
- Contributed to establishing a **Compose UI testing suite**, introducing automated UI tests to strengthen regression coverage and shorten QA feedback cycles.
- Developed and maintained the **Jiva Ops app (React Native – Expo)**, an platform that replaced Bizom. Owned major features including offline-first architecture, geofencing-based beat planning, product catalog, and supervisor dashboards. Implemented CI/CD pipelines with Expo EAS, enabled weekly OTA updates, and published to Play Store & App Store.

Android Developer

Jan 2020 – Apr 2022

DigiRecords (Digiscribe Pvt Ltd), Mumbai

- Migrated entire codebase from **Java** → **Kotlin**, modernizing architecture and maintainability.
- Integrated **Wacom Digital Pad (BLE)** for prescription writing, enabling seamless adoption by doctors skeptical of mobile UI. Required extensive R&D due to limited documentation.
- Rolled out **teleconsultation**, evaluating WebRTC SDKs (Agora, Twilio) and integrating Twilio SDK to enable remote doctor visits.
- Set up **Couchbase DB** for offline-first support and maintained EMR apps for doctors and receptionists.

Android Developer

Apr 2019 – Dec 2019

Chien Technologies Pvt Ltd, Mumbai

- Migrated multiple apps from **Java** → **Kotlin**, improving codebase readability and reliability.
- Implemented **real-time dogwalker tracking** using Google Maps APIs.
- Delivered DoggieTheApp, Vetolution, and Doggie Walker with integrated video consults (Agora) and PayTM SDK payments.

Android Developer

Jan 2019 – Mar 2019

Rothshield Insurance TPA, Mumbai

- Designed and developed insurance app for policyholders to track claims and manage profiles.

ACHIEVEMENTS

- Achieved **3rd place** in company-wide hackathon; prototype integrated into Retailer App.

COLLABORATION & MENTORSHIP

- Established **coding standards, reusable UI components, and testing practices** across Android teams.
- Mentored junior developers and paired to unblock challenges, improving delivery speed.
- Conducted **interviews for Android roles**, contributing to team growth and hiring.
- Recognized for **pixel-perfect Android design fidelity** and close collaboration with product & design teams.
- Partnered with design team to integrate **Ditto Figma plugin** for multi-language copy management. Automated copy exports via GitHub action, eliminating manual copy-paste overhead.

EDUCATION

2014 – 2018 B.E. (Electronics & Telecommunication) at **Watumall Institute, Worli, Mumbai**
